

**REMARKS**

Prior to this Response, Claims 1-30 were pending in the above-referenced patent application. The Patent Office required a restriction to one of the following inventions: Group I including Claims 1-7, Group II including Claims 8-13, Group III including Claims 14-21 or Group IV including Claims 22-30.

The Patent Office deemed claim Group IV to be the genus and Groups I, II, and III to be species of the genus. While Applicant respectfully disagrees with the Patent Office's claim designations, Applicant herein has elected the genus group for continuing examination in this case. **In response to the restriction requirement, Applicant herein elects Claim Group IV (Claims 22-30) with traverse.**

This provisional election is done with traverse to the extent this restriction requirement might later be shown to be misplaced, and without prejudice to the filing of possible divisional applications directed to the subject matter in the non-elected claims.

**CONCLUSION**

Please charge any deficit or credit any surplus to our Deposit Account No. 01-1960. A duplicate copy of this page is enclosed for that purpose.

For these, and other, reasons, Applicants believe that the claims are in condition for allowance. Reconsideration, re-examination, and allowance of all claims are respectfully requested.
